ABOUT ME

I am an organized, motivated and reliable developer with a sense of humor. In my freetime I enjoy hiking, climbing and ski touring. My greatest achievment is the love to programming I evolved over the last years.

SKILLS

- JavaScript
- NodeJs
- VueJs
- Html5 / Css3
- Java
- Python
- C#

EDUCATION

Matura / Diploma exam

Higher Technical College for Software Engineering
2018-2023

EXPERIENCE

Software Engineer (Part time)
NeedNect Solutions / Homeoffice / May 2022 - today

The company provides software for the tourism industry. My current area of responsibility is the frontend with VueJs.

Software Engineer (Internship)
hs2n Informationstechnologie GmbH / Villach / August 2021

My schoolmate and I were developing a tray-icon and a service which task it is to administrate the permissions of devices in a network. The service and the tray-icon were both written in C#.

Software Engineer (Part time)
hs2n Informationstechnologie GmbH / Villach / August 2020 – July 2021

I implemented multiple small software projects for clients and fragments for bigger applications. The main skills I trained in this time were JavaScript and C#.

Software Engineer (Internship)
hs2n Informationstechnologie GmbH / Villach / July 2020

I was developing an electron app which had to look like the company`s webapp. Some app features had to be accessible via tray-icon. During this internship, I mostly trained my JavaScript, NodeJs, HTML and electron skills.

Internship
Consens Zeiterfassung GmbH / Insbruck / July 2019

This company provides other companies with time tracking software and hardware. I gathered knowledge about SQL, soldering, 3D-printing and a little bit of Java development.
